## EXAMINER'S COMMENTS

1. The drawings were received on 4/17/2006. These drawings are accepted by the Examiner.

### *Response to Arguments*

2. Applicant's arguments filed 4/17/2006 have been fully considered and are persuasive.

### *Reasons for Allowance*

3. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a method for carrying out and verifying a changeover comprising providing a computerized unit for verifying and storing instructions for the changeover, providing a portable processor with a code reader to read codes on the parts of the changeover, recalling information regarding the changeover from the computerized unit to the portable processor, and using the portable processor to verify each part of the changeover is carried out correctly.

The most pertinent prior art, MOORE ET AL, discloses a method of performing a changeover in a packaging machine and verifying each part of the changeover by color codes. MOORE ET AL does not disclose providing a computerized unit for verifying and storing instructions for the changeover, providing a portable processor with a code reader to read codes on the parts of the changeover, recalling information regarding the changeover from the

Art Unit: 3721

computerized unit to the portable processor, and using the portable processor to verify each part of the changeover is carried out correctly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
